AMUSEMENTS

Butler Theater

The program at the Butler tonight is one of unusual merit, being a two-reel subject entitled "The Red Man's Honor," a story of our Indian's sense of honor, a beautiful love story full of action, a marvelous picture of Indian life. Returning from civilization where he had won the admiration of the white men for his bravery, to his former tribe to meet sentence of death, accompanied by his bride; a thrilling, sensational, spectacular drama. Two other interesting pictures are: "The Virtue of Rags," an Essanay drama, and Vitaphone comedy, entitled, "Sue Simpkins' Ambition." Like many others Sue wants to be a moving picture actress. She gets a chance, tries to be emotional and makes a comedy of a tragedy. She hikes it back home and now acts as leading lady for Ezra Hawks in a moving picture of matrimonial felicity.

Saturday, Pathe Weekly. Tomorrow a full reel of Balkan war scenes taken at the battlefield.

PAY ORE IS BROUGHT BY TEAM FROM MINE

Two loads of ore that is said to be of excellent grade have arrived here in charge of J. E. White, from a property owned by Sheriff W. A. Ingalls and situated at Sand Springs, near the upper end of Death valley, about 52 miles from Goldfield, says the Tribune. The ore carries both gold and silver and it is said that the property is one of excellent promise. The product was brought to the local sampler of the Western Ore Purchasing company, whence, after sampling, it is forwarded to the smelters for treatment. Despite the long road haul it is said that this ore is of sufficient value to return a good profit for the owner of the property.

Vandeville acts from the Considine circuit will appear at the Big Casino tonight.

WANT OPTICIANS TO KNOW BUSINESS OR QUIT WORKING

ASSEMBLY MEMBERS ARE UP IN ARMS AGAINST FAKERS WHO FIT EYE GLASSES

The members of the state assembly who have to wear glasses are up in arms and intend to fight the new measure introduced relative to the practice of optometry through to a point where the men with weak eyes are protected from fakers.

It is understood that there are a number of so-called opticians in the state who know about as much about fitting glasses as a hog does about Sunday, and this is the class of men that the assemblymen are after. The bill presented rules that all practitioners must have a license to practice and after six months must pass an examination providing they do not secure their license at once and show that they have been practicing prior to the time the bill passes. This is the very clause which the glass wearers want cut out and want every man who fits glasses in the state to be able to show that he is a competent man.

The measure has been made a special order for Tuesday and on this day Forman of Nye will be on hand with an amendment which he hopes will cure the evil and force every kiosk fitter to produce his certificate or seek some other way of earning his livelihood.

HIGHEST AND LOWEST POINTS IN THE WORLD

The maximum difference in elevation of land in the United States is 14,777 feet, according to the United States geological survey. Mount Whitney, the highest point, is 14,501 feet above sea level, and a point in Death Valley is 278 feet below sea level. These two points, which are both in California, are less than 90 miles apart. This difference is small, however, as compared with the figures for Asia. Mount Everest rises 29,002 feet above sea level whereas the shores of the Dead sea are 1,290 feet below sea level, a total difference in land heights of 30,292 feet. Mount Everest has never been climbed.

The greatest ocean depth yet found is 32,088 feet, at a point about 40 miles north of the island of Mindanao, in the Philippine islands. The ocean bottom at this point is therefore more than 11½ miles below the summit of Mt. Everest.

The difference in the land heights in Europe is about 15,868 feet.

SILVER WIRE USED TO REPAIR OLD FRACTURE

Louis Lazarini, a miner employed at the Belmont, underwent an operation at the Belmont hospital this morning, when an old fracture was united by the aid of silver wire. The wire was used in order to hold the bones in their proper position while effecting a union. The operation was performed by Dr. O'Neal.

TONOPAH BOASTS OF FOUR MINES ON THE HONOR ROLL

GOVERNMENT REPORT SHOWS SIXTEEN LARGES SILVER PRODUCERS DURING 1911

The U. S. geological survey gives the following mines as being the first 16 silver mines in the United States in the order of their productiveness in 1911:

Location and State	Butte, Mont.
Anaconda	Butte, Mont.
Tonopah Belmont	Tonopah, Nev.
Tonopah Mining	Tonopah, Nev.
Iron Blossom	Eureka, Utah
Mace and Burke	Wallace, Ida.
Silver King	Park City, Utah
Speculator	Butte, Mont.
Copper Queen	Bisbee, Ariz.
Bunker Hill & Sullivan	Yreka, Ida.
Centennial-Eureka	Eureka, Utah
Daly-West	Park City, Utah
Hercules	Burke, Ida.
Montana Tonopah	Tonopah, Nev.
Old Jordan-Tel.	Bingham, Utah
Holter	Jefferson, Mont.
Tonopah Ex.	Tonopah, Nev.

The Anaconda, as the country's biggest silver mine, is doubtless a surprise to many. Tonopah has four mines in this honor roll, Butte has three and the Coeur d'Alene district of Idaho has also three.

New vaudeville sketches at the Big Casino tonight. Everybody welcome.
